Mr. R. K. WHITE presented the memorial of H. I. Todd, keeper of the Kennach Particular Partic

NEW YORK, Jan 16. The Herald's special states that Grant and Sherman caited on the President, and the former, in the presence of Sherman, admitted that he had promised to resign the office of Sevretary of War in response to the proper legal proceedings, for, if circumstances demanded snother course, he would surrender the office into the President's hands.

The Tribune's special states that the draft of a new whisky tax bill will be completed in a few days. The indications are that the tax will be greatly reduced. The sentiment of the House ways and means committee is in favor of a new revenue bill instead of that pending.

President on Tuesday, and after the formal strains and made explanations, both Grant and Sherman suggested that Stanton hould resign, and told the President they would so advise Stanton. They subsciently had an interview with Stanton. The World's special says General McLernand is to be minister to Mexico.

motived against the law. Mr. Trumbuli consented to act, and an attempt will be made on Friday by the petitioner's counsel to have the motion to bring the case forward on the docket argined.

The President declined to accept the resignation of Commissioner Theaker, tendered to take effect to-day.

The Tribune's special says a draft of a new whisky tax bill that has been prepared will be completed in a few days.

The indications are that the committee will look with favor upon the preposition which has been submitted to them to give to the highest bidner the exclusive right to manufacture whisky. The committee will consider the various points for sweek or so, with a view of adjusting a proper bill. The ways and means committee favor a new revenue bill in place of the one now pending.
